

FIT2LEARN

LEARNING THROUGH FUN!

The theory of multiple intelligences states that we are all 'smart' in different ways. What if your child learns more effectively when they are involved in a physical activity, or if they are relating to others in a meaningful way, or if they are given the chance for personal reflection? Fit2Learn is a program that aims to make academic learning fun and enjoyable through games, for kids who may struggle academically through traditional methods of learning.

WHO Grades 4 to 6 kids living in the City of Kingston

WHEN Mondays 4-5:30pm - April 30th to June 25th 2018
